Assignment 3

- A department employs many employees, but each employee is employed by one department (many-to-many relationship).
- Some employees, known as “rovers,” are not assigned to any department (zero-to-zero relationship).
- A division operates many departments, but each department is operated by one division (one-to-many relationship).
- An employee may be assigned many projects, and a project may have many employees assigned to it (many-to-many relationship).
- A project must have at least one employee assigned to it (one-to-one relationship).
- One of the employees manages each department, and each department is managed by only one employee (one and only one relationship).
- One of the employees runs each division, and each division is run by only one employee (one and only one relationship).
